The Brady Brief - New Health Care Changes Working For You

Dear Friend,

Last week, several new, key patient rights and protections began to take effect for the American people. These new reforms are just some of the provisions outlined in the historic health insurance reform law enacted in March. This new "Patient's Bill of Rights" is designed to put you and your doctor, not the health insurance companies, back in charge of your health care.

The following outlines the major provisions that took effect on September 23rd, but for more detailed information about the health insurance reform law and its important changes, I encourage you to visit [my website](#) or <http://www.healthcare.gov/>.

- Health coverage cannot be arbitrarily cancelled if you become sick
- Children cannot be denied coverage due to a pre-existing condition
- Children and young adults can stay on their parents' health plan until the age of 26
- Health plans cannot put a lifetime limit on health coverage
- Annual limits on health plans are phased out after 3 years
- Insurance companies must cover preventative services without deductibles or co-payments

I look forward to the remainder of the changes and reforms of this new law taking effect, and I will continue to inform you as they occur. Please know that I will continue to fight to ensure that all Americans have access to affordable, quality health care. If you have any questions about health care reform or any other issue, don't hesitate to contact me.

Sincerely,

Robert Brady
Member of Congress
